

2022-2023 Art Conservatory Supply List

Texas Art Conservatory provides all shared supplies for each art course but also requires each student to have their own personal supplies. We encourage students to build their artist's tool box as they continue to take classes with us. Links provided are examples of what we recommend but do not have to be the exact item that you purchase.

These Supplies are for students enrolled in any of our Art Studio Classes

All items can be ordered through Amazon or found at your local art supply store
Students who studied with us last year may already have many of these supplies

List coming Soon!!!
